Objective:

Passionate IT Trainer and Data Science professional with expertise in Machine Learning, GenAI, and Data Analytics. Dedicated to empowering students with programming knowledge while leveraging analytical and statistical techniques to solve real-world business problems. Seeking to contribute my expertise in data-driven decision-making, predictive modelling, and software development to drive innovation and learning in the tech industry

---

Work Experience

IT Trainer – Cad Point, Chennai (April 2024 – Present)
Teaching students various **programming languages**, including Python, Java, and SQL.
Guiding students to build a strong foundation in **software development and data science**.
Conducting **workshops and hands-on sessions** to enhance practical learning.

Education

📌 **M.Sc. Computer Science** – Krishnasamy Arts & Science Management for Women, Annamalai University (2023) – **91.8% (Outstanding)**

📌 **B.Sc. Computer Science** – Theivanai Ammal College for Women, Thiruvalluvar University (2021) – **87% (Distinction)**

Technical Skills

Programming & Tools: Python, Java, C, C++
Data Science & ML: Regression, Classification, Clustering, Predictive Modeling
Databases: SQL, MySQL
Visualization & BI Tools: Tableau, Excel
Web Technologies: HTML, CSS, JavaScript

Projects

- **Automated Employee Engagement Analysis (Python)**
  - Performed **Exploratory Data Analysis (EDA)** to identify key engagement factors.
  - Built a **predictive ML model** to measure employee engagement based on historical data.
  - Created **interactive visuals in Python** for better HR decision-making.

- **Mitigating Bird Strikes in Aviation (Tableau)**
    - Conducted **data visualization in Tableau** to analyze high-risk bird strike zones.
    - Integrated **real-time flight and weather data** for predictive risk assessment.
    - Developed an **interactive dashboard** to help aviation authorities optimize flight paths.

Certifications & Achievements

- **Data Science & Machine Learning Advanced Program (NIIT) | Oct 2024 – Mar 2025**
- **Served as a Literature Club Representative** and actively promoted education. **Awarded a Silver Medal** for outstanding efforts in spreading awareness about the importance of education in rural villages.
- Certified in **Block chain Technology, Ethical Hacking, and Cisco CCNA**
- Presented papers on **Mobile Computing, Data Science & Machine Learning** at national seminars
- Completed **Java Programming** course from CAD POINT Institute
- Participated in workshops on **IoT, Research Methodologies, and Advanced Computing**

Strengths

✓ Strong analytical and problem-solving skills

✓ Self-motivated and results-driven

✓ Quick learner with adaptability to new technologies

✓ Effective communication and teamwork
